

a Forbidden Psalm gaming event

# Turm

2023

The Tower City, home for centuries to the yellow-robed necromancers, was hit by a devastating bolt from the sky and reduced to rubble.

In the damp caves beneath the deep dungeons of the city dwells their god

# Vvolos

who eats souls and shits gold. You are here to plunder their riches.

But beware! There will be resistance from the still surviving Cult of Vvolos: the council of necromancers, with their living and their undead minions. And, you are not the only one coming to Turm to pillage.

## WHERE AND WHEN

The Turm 2023 event will take place at Trg  
Žrtava Fašizma 14, Zagreb, Croatia.  
The day is Saturday,

**July 1st 2023.**

Turm 2023 is a part of Agram Arena Summer event series organised by UMS "Agram".

# The Rules

The event will use the original **Forbidden Psalm** rulebook, along with scenarios and monsters created by the organizer for the event. The scenarios and monster stats will be revealed on the day of the event.

Each player will play a campaign of **FOUR** games during the event day.

The first three games will be encounters against a single opponent, in which the goal is to collect treasure.

The player with most treasures collected over three games will be awarded the title of **Marauder**.

A warband can also make a name for themselves by killing monsters and incapacitating other player characters. The player whose warband makes the most monster kills and PC downs in the first three games will be awarded the title of **Slayer**.

The fourth and final game will be a battle royale. Each player selects a single model from their warband as their champion, and fights to the death against the other players' champions. The last one standing is the winner and is awarded the title of **Triumphator**.

Modelling and painting is a massive part of the hobby. Make sure your warband looks its best for the sake of making the event as cool as possible. It may give you extra motivation to know that the player that impresses most with their imagination, skill, and effort will be awarded the **Best Painted Warband** award. Only the starting warband of five models will be considered when judging this.
